Fire extinguisher ball

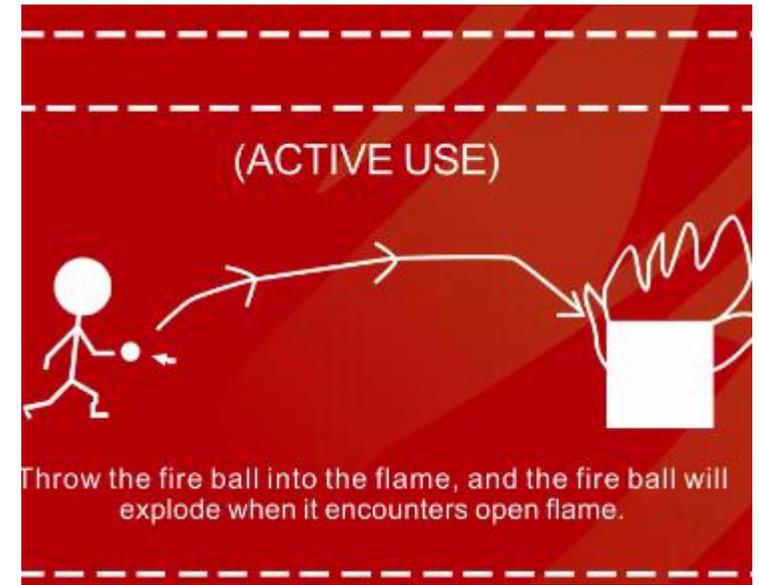

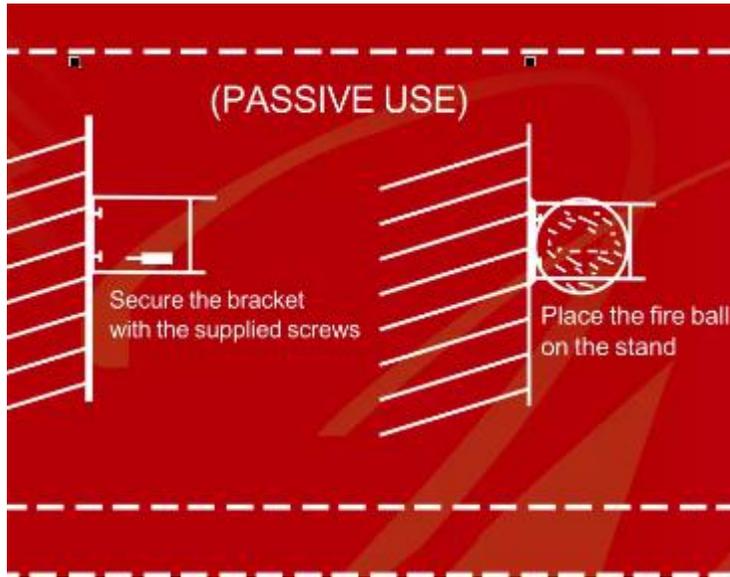

Hengyang Runtai Fire Chemical Co., Ltd.

Fire Extinguisher Ball

<p>Photo</p>	
<p>Product Introduction</p>	<p>Runtai Fire extinguisher ball / Throwing automatic fire extinguisher ballon.</p> <p>Fire Extinguisher ball is a kind of shaped ball extinguisher. When simply thrown into the fire, it would activate within 3 senconds and effectively disperse extinguishing chemicals. When a fire occurs and no one is present, fire extinguisher ball will self-activate when it comes into contact with fire and give loud noise to warn the people nearby. Due to this feature, it can be placed in many fire prone areas, such as electrical circuit breakers, or kitchen, cars, hotels, bla... There is no special train or skill required to operate the ball and no need to face any dangers. No inspection and maintenance are required for the product life span for 5 years.</p>
<p>Advantages</p>	<ol style="list-style-type: none"> 1. Fast Auto Fire Ball is a kind of newly invented light - weighted extinguisher. 2. When simply thrown into the fire,it would activate within 3 Seconds and effectively disperse extinguishing chemicals. 3. When fire occurs and no one is present,it would self - activate when it meets with fire and gives loud noise acting as fire alarm to warn the people nearby. 4. There is no special training or skills required to operate the ball and no need to face any dangers. No inspection and maintenance are required for the product life span for 5 years. 5. It can be placed in many fire prone areas, such as electrical circuit breakers, kitchen, cars, hotels, home and office...

Package													
Usage	Active Use						Passive Use						
	<p>Throwing Fire Extinguishing Ball into the fire - When a fire occurred, take the nearest available Fire Extinguishing Ball and simply throw it into the fire. The ball will naturally fall into the base of the flame, where it is most needed, and activate within 3 seconds. No need to get close to the fire. No special training or skills required.</p>						<p>Self Activating Mount - One of the great benefits of Fire Extinguishing Ball is the fact that it can self activate in the presence of fire when no-one is present. If positioned in the appropriate high-risk area where most fires are likely to start, it will self activate upon reaching the appropriate temperature and extinguish the fire..</p>
